would fit (or not) in strategic work on the issue. Hopefully the GRC will not dominate discussion –
but see points to be addressed in afternoon session – and consider holding "straw poll" in your
small group.

12:00 lunch [NOTE: for convenience and to continue some discussions, consider having lunch this
day in the Simpson Cafeteria.]

1:00 Convene in large group – report in from the Strategic / cross-cut groups – about 10 min each
including (but not limited to) the GRC question.

With Respect to the issue of an elected body (GRC):

Is there the leadership to do an elected body?

If so, will others who are not into it "stand aside?"

If not, do we want to have a vote on whether to have a body?

If we proceed with an election, nominations will consist of those who have agreed to
serve...and we will vote by marks on that list.
